

Separator Selection Checklist

Effluent Rating desired

- 15 PPM
- 10 PPM

Design parameter

- Flow rate
- Spill / Storage Capacity

Separator Location and Style

- Above ground
 - Cylindrical
 - Rectangular
 - Single-wall
 - Double-wall
 - Special mounting

- Below ground (cylindrical only)
 - Single-wall
 - Double-wall
 - Burial Depth
 - 60" or less
 - Greater than 60"

Inlet Flow Method

- Gravity flow
- Pumped flow

Accessories/ Options

- Oil level alarming
- Leak detection
- Automatic Pump out
- Automatic Inlet isolation
- Inlet Grit chamber
